- REACT.JS
- NODEJS
- EXPRESSJS
- MONGODB
- HTML, CSS & JAVASCRIPT
- TAILWINDCSS
- GIT

HOBBIES

- MUSIC
- WALKING OUT

WORK EXPERIENCE

Built an AI image generating app

Using MERN(MongoDB, Express.js, React.js, Node.js) stack, and openAI API

Users can type in prompts, and generate images. They can also share the images with the community. The app also has a community showcase page, where all the shared images can be seen.

Built a URL shortening API service

Using Node.js & MongoDB

A micro-service that shortens the URLs provided to it. Similar to URL shorteners like Bitly and Cuttly which are incredibly popular.
